1 Travelaloha-Infrastructure

1.1 Introduction

This Documentation contains all efforts that were conducted in order to configure the server to deploy the project.

2 High-Level Summary

I was tasked with configuring the server to deploy our project. The project is part of CSC 210/BIF 521 Analysis and Design of Algorithms and CSC218 Database Systems. The focus of this project is to put our theory into practice. My overall objective was to configure the network, and systems.

3 Additional Items
